Application #:                     **10/715,045**  
Art Unit                             **2618**  
Filing Date:                       **November 18, 2003**  
Title:                               **METHOD, APPARATUS AND SYSTEM FOR  
MULTIPLE SIGNAL TRANSMISSION, RECEPTION,  
AND RESTORATION**

Dear Sir:

Thank you for your most recent office action and re-instanting the examination of the above mentioned application.

We apologize for the non-compliance which you stated in the office action dated December 5, 2008, and have made our best effort to correct it. As our response, we are providing the corrected claims, and a claim status list.

In order to facilitate the continuity of the application process and for your convenience, we have attached our original letter, dated February 15, 2007 which was our first response to your original office action.

Respectfully submitted,

  
\_\_\_\_\_  
Andrew Sendyk, inventor  
President, Creative Signal Solutions Inc.

Dear Sir:

Thank you for the “Office Action Summary”, mailed on December 13, 2006. In the following response, the inventors would like to address the basis for the rejections listed in this summary and respectfully wish to ask you for reexamination of the above mentioned application with the modifications specified in this letter.

The objections to claim 1 have been addressed by substituting “said” for “a”. The inventors wish to thank the examiner for pointing out this error. Also, the inventors are grateful for bringing to their attention the prior art: namely the patents of Clark et al., Tsujimoto and Frecassetti et al.
